If you have favorite stones or other sacred items you'd like to
connect with spirit animal energies, please feel free to bring them!

*This is a monthly gathering to connect with and honor the
Shamanistic energies of the animal kingdom!*

*Listen to the whispers of
your heart to hear the hidden
messages of the animal kingdom
for guidance and wisdom!*

This is a monthly gathering featuring group discussions and conversations about Shamanic energies and beliefs. There will also be individual messages for attendees from the monthly animal spirit being explored. In addition to this, there will also be a group meditation to help connect with the specific energies of the monthly animal.

Spirit Animals are based on shamanistic beliefs (from a vast number of ancient cultures) and would not include animals/pets that have crossed over.

The only prerequisite for this gathering is an open mind and an open heart. Nor do you need to feel obligated to attend all gatherings.

January 19th - Meet the Butterfly

February 9th - Working with Dragons

March 8th - Soaring with Eagles

The workshop will entail group discussion, meditation and lots of laughter. This is a just plain fun gathering to connect with the finned, furred, scaled, feathered and hided beings that share the World with us!
